PHP  
Javascript  
CSS  
HTML  
MySQL

## Tools

Laravel  
React  
Git  
SASS  
Gatsby.js

## Experience

### Computer Works Inc Monroe - *Web Developer*

March 2017 - Present

Worked on a small team developing business management tools, such as warehouse management and file sharing applications, using PHP, Laravel, and MySQL. Manage clients on contracts, features, and issues to deliver quality web applications and develop client relationships.

### Ann Arbor GiveCamp - *CSS, Javascript, Content Migration* - [Website](#)

September 15-17th 2017, September 14-16th 2018

Worked with a team of volunteer developers over a weekend to provide local non-profits with a Wordpress website to better inform it's community of events and information

### Tech In Monroe - *Meetup Organizer*

February 2017 - September 2018

Held and organized meetups for local developers, and those interested in development, to help one another with questions and issues, as well as learn about new technology and workflows.

### GDI Toledo Presents: *Introduction to HTML / CSS, Toledo, OH* - *Teaching Assistant*

October 22nd & 23rd, 2016

Assisted students in understanding the foundation of HTML and CSS.

## Projects

### Pugcheck Teams - *Laravel, MySQL, Blizzard API, SASS, HTML* - [Website](#) / [Github](#)

Supplying World of Warcraft raid teams with a place to organize teammates in their assigned roles as well as pulling important character information from Blizzard's API.

### Pugcheck - *Laravel, MySQL, Blizzard API, SASS, HTML* - [Website](#) / [Github](#)

A World of Warcraft character progression lookup tool that allows users to check raid progression and logs to gauge player performance.

### NickKramer.me - *React, Gatsby.js, SASS, HTML* - [Website](#) / [Github](#)

Personal website and blog built with Gatsby.js, a React based static site generator.
